TO THE TRADEMARK TRIAL AND APPEAL BOARD

MOTION TO REMAND

Applicant respectfully requests that the TTAB remand this Application to the examiner for consideration of Applicant's Amendment in Response to Second Office Action which it filed on June 13, 2007. The basis of this remand request is that the examiner has required specificity in the identification of goods, and that Applicant believes that its latest Amendment narrows its description of goods to such a great extent that the examiner should have an opportunity to reconsider requirement for specificity in the identification of goods.

Based on the above, Applicant respectfully requests that this application be remanded to the examiner.
